The new runtime is called QuickLISP. The new runtime is not backward compatible with the previous versions. Since AutoCAD 2017, Visual LISP is supported as the script language with QuickLISP, AutoCAD R14, and AutoCAD LT. Since AutoCAD 2012,.NET and Java support are supported as the scripting language. Java support is now through the.NET bridge application. Java support was originally announced in AutoCAD 2008. AutoCAD supports both the standard JRE (Java Runtime Environment) and Oracle JRE (Java Runtime Environment). AutoCAD LT supports Microsoft Windows only. AutoCAD itself can be run in an IDE such as Eclipse. Some developers and consultants run AutoCAD within IDE environments like the AutoCAD plugin for Eclipse.
