In today's fast paced world, there is a shortage of doctors, nurses and other medical personnel, who are needed to assist patients. Unfortunately, much of the shortage is in rural areas. One of the issues of the shortage of medical personnel is that the best doctors, nurses and other medical personnel, who are in rural areas, are already heavily committed to taking care of their own needs and desires. Further, the best doctors, nurses and other medical personnel are sought after and are often unavailable for positions that are not very well compensated. In fact, there are many situations where the best doctors, nurses and other medical personnel are taken from their home areas to provide the best possible care. Because of the personal reasons of the best doctors, nurses and other medical personnel and the shortage of medical personnel, it is not unusual to see a medical emergency situation that requires care that no one is equipped to handle. Additionally, there are many people who are not able to receive the level of medical care that is needed due to the limited availability of medical personnel. Many people have physical disabilities that make it difficult for them to seek out medical help. Further, many people are elderly and in need of medical help, but do not have the medical training or equipment needed to obtain medical care. Elderly individuals have problems that
