
Apexsql Log \\\FREE\\

[Download](#)

This article explains how to use the ApexSQL Log command line interface (CLI) and create output files. ApexSQL Log can be a useful tool for monitoring database performance and performing various data processing and analysis tasks. It allows you to record and analyze data quickly and efficiently, and perform various routine operations without accessing the database with a graphical user interface (GUI). To create and view output files, you must use the SQL Server command line interface. Input data
