System Requirements:

Windows Mac OS Steam Account An internet connection Important Notes: We are still in the initial stages of development. This version is almost certain to have a few bugs so please report them. The game itself is in development and should be played with an understanding that it may be subject to changes. Quake Live is a free client and the original Team Fortress is not free. Feature additions and quality of life changes should be expected in the future. This version is nearly feature complete, but the campaign is currently
