Elden Ring [March-2022]

"By no means is this easy to be played... You need to have a good instinct about the game! Though it's hard to get used to the fighting system, I finally felt satisfied when I started being more deliberate in using my skills." "This game is a tough one. It's easy to get pushed into a battle unless you know how to use both your skills and your guard. There is no magic, so... Seriously, this game is best saved for those who have already overcome the challenges that it has to offer and are looking for a new challenge." "I'm not saying it's a bad game, but if you don't know how to play the game, or aren't a good strategist, it will make you frustrated."

Honestly, the game isn't that good." "This game really held my attention." "Even if you play it for only 5 minutes, you'll get immersed in it. I'm waiting for the last chapter!!!" MoeHara-san's REVIEWS ELDEN RING game: "I really look forward to the next chapter of this game! I just have to work harder to get stronger and more muscles. That's the first thing I need to do. It took me awhile to get into this game, but it's so satisfying when I go up a level! I'm looking forward to the next chapter... EDELWOOD BLUEMARINE: "Cards are my specialty..." "I'm really looking forward to the next episode!!" "I'm getting stronger every day!" "...I'm also looking forward to the next episode!!" SEIGE: "As soon as I finish, I will write a review for you all!" "When I finish the story, I will come back and write a review..." "Hope you'll all be waiting for my reviews as soon as the game has been completed." "I want to be an Elden Lord!" THOMAS-KUNST: "I will continue to practice when I reach the last chapter!!" "To everyone who keeps on cheering for me! I will repay you!" "This is hard, but... I'll continue until I finish..." "I will continue as long as the bff6bb2d33

What's new:

1.1 Update Highlights 1.1 Update Note

Backing up the first launch of the game, we have the final update! New characters, additions to the rank calculation system and the final touches.

After first release, we found that “No Collaborator” didn’t fit the expressiveness of online play very well. As expected, we heard about many reports from fans who would like their favorite characters! But how long did you wait? We planned to update the game as version 1.2 and at last we received some good news from the testers: “Yes, we should be able to say ‘Welcome’ to this fabulous game, we want to play ‘Lazy Dungeon, Reaper.’”

Of course, we believed that the testers would not play for fun even if we add many characters. But we tried to make a game that provides enough “fun” even for testers. So, we gathered all testers of the game to play on-line for fun as a test before launch.

Here are a few notes from the testers. To all testers, we are grateful for your help. I was pleased to see an actress for Erimus to play with his master, Arkarius. Raimi seemed to look awesome at home! We also added Arkarius to the map in the room! We also added Umelda who has free communication with her party members. We added an archer that can use ranged weapons as well as some new stats. You can also shoot arrows from the start! As a wizard, Erimus’ abilities such as reviving dead adventurers have been improved.

Thanks for playing together with us. You can download the game updates now! If you have any problems, please contact the Customer Support team.
