video editing software video clip trimming video clip splitting video splitter video cut video editor trimmer capture software splitter software video cut tool clip cutter video cut tool video splitter tool video cutter video clip cutter 1 of 2 4 out of 5 by Ryan on 5/12/2009 Good for trimming shorter clips. I'm still waiting for it to break away from the awful Windows.NET offering that is ImTOO Windows Movie Cutter. Like others have said, it gets the job done. It's not the greatest audio quality trimming, but it does the job. And it's UI and workflow are pretty easy to understand. That's a big plus for me. 2 of 2 5 out of 5 by Ken on 5/7/2009 This is a really good video splitter. One of the best that I have found on the Windows platform. 3 of 2 5 out of 5 by randy on 4/17/2009 I was impressed with ImTOO Video Splitter. I have a huge amount of video files that needed to be chopped and it worked very well. It gives you a lot of options for setting the size of your chunks (how many seconds), the start and end position of the clip, and a bunch of other editing options. I think it's an excellent product! 1 of 2 5 out of 5 by Rick on 3/19/2009 i used this and it did the job, did not have any problems and it was well worth the money.Hemophilic arthropathy. Ultrastructure and immunohistochemical localization of fibroblast growth factor. Hemophilic arthropathy is characterized by severe synovial inflammation and proliferative synovitis, and is the most common manifestation of hemophilia in adults. Previous experimental studies have suggested that arthritic lesions in hemophilia may occur secondary to mechanisms that are similar to those observed in arthritis associated with congenital immunodeficiency. To evaluate this hypothesis, the ultrastructure and immunohistochemical localization of fibroblast growth factor (FGF) were studied in the synovial lining and stroma of normal and hemophilic joints. Thirteen synovium samples were obtained from 13 patients
