Download Autodesk Inventor Professional 2015 Full Version. Hello I... Download VRED Professional 2013 Portable 64 Bit.. Download a free. Q: Combining multiple regular expressions I have this regex that at some point is going to hit some URLs that have an email address with a period in it. The company I'm working for has an automated reply when your email bounces but I don't want this to happen until that email address has a period in it, which only happens when you send an email with a dot in it. Is there any way to use the same regex to highlight the email address with a period in it? Here's the regex: /(?!([w-]+)@([w-]+\.)+[w-]+\.[a-zA-Z]{2,10})/gi There's probably a better way e79caf774b
