.Q: How to load ASMX web service file from known File I have a web service that I use in a solution, and it works in the solution, but when I try to copy it over to a computer with another solution I get a "could not be found" error. To get past this, I need to know which solution the file is in. Is there a way to ask the solution whether it is in known location? Currently I am loading with 648931e174
