Elden Ring stands for the world's only RPG that connects all of your RPGs into one world. Each player can connect to the world and become a character not through real characters, but through a variety of virtual items that appear on the 3D character creation screen. With the support of the powerful functionalities of the RPG system, strong virtual items are being manufactured, and players can obtain them by providing feedback through gameplay.

**CONNECT TO AN ONLINE WORLD THROUGH VIRTUAL ITEMS:** Players can become a character through a range of character components like weapons, armors, and gear, as well as magical gems, along with participating in battles with other players through the online features of the game. The players who can provide the most feedback to the brand-new virtual items are to be rewarded with the highest level gear, while the ones who can provide the most information on newly occurring events are rewarded with unique gift items.
