Scancat-Gold Free PC/Windows 2022 [New]

Scancat-Gold is for those who use XE-3, Netlink3 or Gold card Trunking. Only with TrunkTracking Radios! No need of Swimbroadcaster any longer. If you use BC card with direct access (RC4) to your radio, you can download Scancat-Gold, and Swimbroadcaster will start another application to connect to your card (SC2), that's it! Scancat-Gold features: -

Remote control (link) to any card Trunking radio from any computer. - When you receive any incoming messages, they are displayed in real time. - No need to use XE3 or XE3s for your card Trunking! - PC Phonemod 3.0 to decode messages. - ONE Message database supports ALL! - SWIM BROADCASTERS (Scancat-Gold) even automatically takes control of your in-car radio. - Instant messaging (chat) between users. - Live Streaming from your card to the computer. - Messages reminders! - Auto Start Scancat-Gold every time you start your

computer. - All DSP effects such as FM fading, boost, etc. - "Learn mode". Scancat-Gold will start learning other card Trunking radios! - Export any messages to external DSP effects, with any effects name. - Time "record mode", where new messages will automatically record and saved at the end. - Many many more features... Scancat-Gold is created to take advantage of all Scancat features. Scancat-Gold will not bug you to update your card every month, no need. Scancat-Gold just tell you to update, and you have to pay only if you want! Once you are

paying, updating is FREE, IF you want to update. Always free! Scancat-Gold does not support "RC4 link" mode on your Trunking radio! For a good solution, download Swimbroadcaster. Scancat-Gold has very good results, with 100% reports, for all BC radios and more! Scancat-Gold works great, no issue reported!

Scancat-Gold Technical Features: ----- Scancat-Gold is an "All in One" computer program to take control of your Police Scanner or Shortwave Receiver. Scancat supports all radios, within one

This is the NEW GOLD RELEASE of Scancat "Scancat-3" and you will NOT find this in any previous versions. We have rebuilt it from the ground up and enhance even more features. - Included FREE - Easier to operate. NO more complicated menu - Less clicks. - Includes a new "SIRIUS" mode - Save time. Perform 5 supported tasks with one click to save time - Easier. - You can use your mouse to select any frequency and auto-tune. Simply highlight the frequency, press the left mouse button,

and Scancat will quickly tune in. You can even add the radio to its own station list. - Included FREE! - Includes a new Clock position and on-screen display shows the 3 most recent date/time codes or time/date clock - Scancat has an auto-select function to keep the radio on all the time, including sleep time. - Simple. - Now includes options to permit radio auto-scan when opened. - Improved SIRIUS mode - Preset mode to quickly find radio station numbers - Frequency search with UPC codes - Multilingual support for more languages! - Options to choose

between RSSI and plain text display - Upgrade to Scancat-3D from a previous version (Scancat-2) is now FREE. - Now supports ALL manufacturers' radios. - Improved frequency detection features - Improved receiver screen icons - Improved user interface - New detection animation and music! - Scancat will "wake-up" to find a radio frequency. - Included FREE:
Version: 4.2.1.1Scancat
Windows: Windows 7/8/10 OS:
32-bit Scancat-3D Description:
