What's New in this version: Added a new option for the menu bar (P). Added a new option for the star chart (D). Fixed a few bugs.

----- I have just released a new version of Star Chart which contains a few new features: - Added a new option for the menu bar (P). - Added a new option for the star chart (D). - Fixed a few bugs. If you like Star Chart, please support my software and give it a 5 stars rating in the marketplaces. Thank you! The game is inspired by the book "Prehistoric Zoo" by Bill Nye. That book has illustrations that look like they came from the future. There is a lot of time traveling in it. In this game, you will play the role of an evolution specialist.

You must guide a space-lizard species through evolution, from the Stone Age, to the Nuclear Age and to the Age of Cyberspace. You can travel through the time by clicking the buttons at the bottom left corner of

Desktop Wallpaper Maker Professional
PilotApp Wallpaper Maker™ is a desktop wallpaper or screen saver application, which allows you to create attractive and interactive images using your own desktop photos. With this application you are able to set parameters like path and size for the picture, apply border and frame, and add text directly onto the picture. You can also use default items like pattern and color. You can select the background music, use the built-in effects, for example lighten, blur, tile, and Play it OneNote It! Play it OneNote It!™ is a natural way for Windows 8 to communicate with your

OneNote notebooks. Now, you don't have to get out of OneNote in order to edit a text note, mark it up with a bullet list, or insert a picture from your computer. You can even use a USB camera, or import a picture from the Internet directly into a text note, without having to open a new window. Drag and drop new notebooks, clip NavigationClockThis app provides a simple and elegant clock for your Windows 8 desktop. You can also set the time as alarm and use your own images as the background. Plus, it's free and built-in with the latest Windows 8! Features: - One background images, choose from thousands - Clock, alarm, one-touch sleep - Low power consumption - Change time by touch - Alarm mode (user select time) - 3 different skins - Support NavigationDeskwayBrowserIt is a simple but cool tool for searching and viewing Web pages on your computer screen. It can generate search results that are automatically sorted in a Web browser. With DeskwayBrowser you are able to perform search operations (Google, Yahoo) using multiple criteria (e.g. Web site name or domain name, keyword, date, etc.).The results of the search are displayed in a "list" format and you may view th Navigation NavigationKlaus Plan b7e8fdf5c8

Star Chart 2022 [New]

What's New in the Star Chart?

Star Chart for Windows 8 is an educational software application whose purpose is to help children, students and adults learn about planets, stars and constellations using an interactive approach. You can explore planets, satellites and Messier objects, while learning details about diameters, average temperature and distance from the Sun. It is specifically developed for Windows 8 users. Star Chart Features: User-friendly layout The GUI is designed for easy explorations of planets, moons, rings, satellites, stars, constellations, and Messier objects. You simply need to point to the desired object and the application carries you there. The time travelling mode allows you to shift forward and backward in time by up to 10.000 years. You can also use your voice for flying to and looking at night sky objects. In addition, you may turn on or off the night mode and view a beautiful collection of constellation imagery. The tool lets you perform searches after custom strings and organizes results into different categories, such as Planets,

Constellation, Messier Objects, and Satellites. Explore various objects Star Chart for Windows 8 reveals information and suggestive images for various planets (e.g. Venus, Jupiter, Saturn). You can learn about general characteristics (e.g. diameter, average temperature, rotation), distance and brightness, as well as Azimuth and altitude values. The application shows related data about stars, constellations and Messier objects. Configuration settings Star Chart for Windows 8 is able to automatically detect your location and you may also adjust the longitude and latitude values. Plus, you can hide or show several elements, such as equatorial grid, atmosphere, orbit lines, ecliptic plane, lens effects, compass, constellations items (lines, images, Latin names), and labels, such as stars, planets, constellations and Messier objects. Bottom line All things considered, Star Chart for Windows 8 integrates an intuitive and fun environment for helping you explore stars and constellations, and is suitable for rookies and advanced users alike. Star Chart Description: Star Chart for Windows 8 is an educational software application whose purpose is to help children, students and adults learn about planets, stars and constellations using an interactive approach. You can explore planets, satellites and Messier objects, while learning details about diameters, average temperature and distance from the

Sun. It is specifically developed for Windows 8 users.
