ZIP, OGG, FLA, PPT, PPS, PPTX, PPSX, PPTM, PPSX, PCX, PSD, EPS, PPT, PPS, PPTX, PPSX, PPTM, PPSX, HTML, PPT, PPS, PPTX, PPSX, PPTM, PPSX, ZIP, OGG, FLA, GIF, BMP, DOC, TXT, RTF, JPG, PPT, PPS, PPTX, PPSX, PDF, PSD, EPS, PPT, PPS, PPTX, PPSX, TXT, RTF, JPG, PPT, PPS, PPTX, PPSX, HTML, PDF, PSD, EPS, PPT, PPS, PPTX, PPSX, ZIP, OGG, FLA, GIF, BMP, DOC, TXT, RTF, JPG, PPT, PPS, PPTX, PPSX, TIFF, MP3, WMV, MP4, MO, ZIP, OGG, WMV, MP4, MO, ZIP, OGG, FLA, PPT, PPS, PPTX, PPSX, HTML, PDF, PSD, EPS, PPT

WebCollect Add-on

MyBase WebCollect is an add-on with the extension for both Internet Explorer and Mozilla Firefox, it is so simple and

easy to use. It helps you capture webpages and snippets directly from web browser and save them in myBase database. With an intuitive interface, myBase WebCollect quickly captures the webpages of your choice without having to open or browse each webpage manually. WebCollect supports capture of all webpages: URL list, as well as Webpage(s) or Snippet(s) and is the most convenient way to save webpages. The tool allows you to capture webpages based on a URL, Page Content and/or Page Title, even you can define your own conditions for capturing webpages. There is no need to open or browse each webpage manually. When capturing, webpages get its own well-designed URL, Page Title, Page Content

and Date & Time to later insert in myBase database. 2. What's new Updated Tools Management Save and retrieve webpages in databases directly. Wizards to guide you Useful wizard to save webpages according to the conditions that you preset. Capture Internet Explorer/Mozilla Firefox URLs by click the Add URL or Add Query Add URL or Add Query buttons. Capture HTML/MHT/XML pages by click the Add HTML or Add MHTML Or Add XML buttons. Capture Internet Explorer/Mozilla Firefox URLs by click the Add URL or Add Query Add URL or Add Query buttons. Capture HTML/MHT/XML pages by click the Add HTML or Add MHTML Or Add XML buttons. You can specify the following variables at the time of saving

html/mht/xml pages Page Title Page Content URL Date & Time You can also capture the Pages you want to save and let our tools manage them. When you click the "Save with myBase" button, the captured webpages or snippets will be saved in the databases. You can capture several webpages at once. You can capture webpages by size Generates a short URL for your saved webpages, and adds the URL to the list. Generates a short URL for your saved webpages, and adds the URL to the list. By using the cached copies of webpages, you'll save up a lot of bandwidth cost, and preview the captured 3a67dffeec

Capture webpages, snippets or images from Internet Explorer or Mozilla Firefox web browsers to myBase databases without having to first save html/mht files. This adds a right-click context menu item "Save with myBase" in Internet Explorer and Mozilla Firefox to capture and save webpages to myBase databases. It is now possible to capture images, pdf, word and other formats from one's internet browser directly in myBase databases. Also, with myBase WebCollect Add-on installed, the "Save as Text File" option will be available after right-clicking on a webpage to insert a webpage to text file and start

saving it to myBase database. "Save With myBase" context menu item will allow the user to: Capture webpages from Internet Explorer or Mozilla Firefox web browsers for the convenience of saving in myBase databases. Save webpages as html/mht files in the myBase database. Save webpages as PNG or JPEG images for the convenience of saving in myBase databases. Save webpages as PDF document or other formats, such as emf/wmf document in the myBase database. Remark: "Save with myBase" context menu will be disabled if myBase Add-ons are not installed or disabled. If myBase Add-ons are installed but disabled, "Save with myBase" will not be available and can be re-enabled with the Add-on list.

Supported Browsers Internet Explorer, Chrome, Safari, Firefox. Operating system requirements Windows 2000, XP, 2003, Vista, 7, 8 Supported file extensions All web browser supported. Internet explorer supported file format png, jpeg, emf, wmf, tif, gif, bmp, jpe, jif, hdr, cab, rar No other file format. There are no other dependency to myBase Add-on, other than myBase WebCollect Add-on. Author : Joe Sources : Website : Wish to contribute to webcollect or share any problems and ideas please send to for further support. License : myBase WebCollect Add-on is open source and licensed under GPL Make a snowman in Photoshop. I have the following source file,

WebCollect add-on for myBase gives you the convenient and smooth web browser capture tool without having to first save html/mht files and then insert them manually.
