Build a powerful character by taking a role in the fantasy drama. - The main protagonist is a young man named Tarnished. As a fierce fighter living in a dangerous world, he is seeking for power. - As the story develops, Tarnished will unite with other characters. Equip a range of weapons and armor to establish a variety of party formations to raid your enemies. - There are many quests to discover, so it is important to discover new elements and get rewarded. - Share your experience via the online game. Find new characters with your friends, and travel to various places together. Developer : Arkadium Publisher: Arkadium
Category: Role-Playing Games Release Date: 07/10/2017 Want to win cool prizes? Just like you, some of our competitors have been in the game for a long time and really know their stuff. They have used their time and energy to develop effective strategies and well-thought out marketing plans that will see them soaring to the top and crushing their competition. We want to share those plans with you, and reward you for being a part of the competition. We know that they are probably pretty good already, but we are going to make the competition even better, and give you some more chances to win cool prizes. All you need to do is complete the following actions and let the best strategies win. RSS FEED The Elsword Facebook Fanpage has been doing a promotion all week. In this promotion, the team is offering new items to the people who like the page. In addition to that, they are going to share a lot of game secrets that we would not share in this post. Please share with your friends to increase the chance of winning prizes. Note : Please leave your Facebook user ID in the comments so we can contact you and give you your prizes.// Copyright David Abrahams 2002. // Distributed under the Boost Software License, Version 1.0. Features Key:

Unique Online Element in the Ages between Online Multiplayer Elden Ring Online plays by its own rules, and allows you to connect by distance with others and meet new people even if you play on different devices or at different times. Your unique account information will not be shared with any other person, and we will never collect the financial information of the users of other devices, so you will feel free and safe from a distance and easily connect to friends and play with them. We are not responsible for any damage that befall upon your account while away from your device, so we ask that you prepare extra vigilance and protection techniques with safety measures or trustful friends.

A diverse, exquisite game system where players can independently decide the content of quests and the methods to achieve goals. We create a variety of content ranging from gear to dungeons in order to satisfy the interests of all the players. Encounter and interact with other players through a multitude of online missions to become stronger than the other players. Enjoy highly interactive, event-oriented quests and questlines to play more fun with other players.

Business of Legend Online Development
Realistic Shaded 3D World
3D graphics with vivid colors
Systems that resemble the world of the myth in such as, and ancient cities and customs

Respectful User Experience to Enjoy the Game
A game that you can play more smoothly through better features such as the world map and unified interface than ever before. Your desires for other elements such as an intuitively arranged interface or bigger quests are heard around the world.

Elden Ring Client features

- A stable client to play better and enjoy a fresh feeling Before the launch of the game we prepared the client to prevent problems from occurring on the first launch. Using the bistreaming technology and server optimization, we succeeded in minimizing the delay of the connection between client and server when starting the game.
- Login Online Without Facebook or Google+
As the official Elden Ring online sign-in service, Login Online lets you log in anywhere without the need to memorize the usernames and passwords of multiple platforms.
- Realtime 3D Streaming
