Amazon: iTunes: Bandcamp: ?Music Ids: ↓ @jesserysclare ?Mixes: ↓ @bathtubbohemian ♥ Subscribe and share by tapping on →\*? Like if you enjoyed... and don't forget to hit the bell? so you don't miss any uploads. Enjoy and remember, the more you watch, the less you drink. "Fungi Explained" with the Museum of Science and Industry Join John for a fun, all-inclusive tour of the fascinating world of fungi. John will use his extraordinary knowledge of natural history and his infectious sense of humor to introduce you to the magical world of the fungi, explaining what they are, how they live, and what they can do for you. John will explore the many ways that fungi can help us to grow food, clean our air, purify our water, and make our lives more enjoyable. Welcome to the world of fungi! You can observe many examples of fungi in your own backyard: edible mushrooms and mushrooms, the home of molds, the work of fungus-like organisms, the helpers of plants and trees, and more. Join John as he takes you on an inside look at these incredible organisms, from the tips of their tiny roots to the shaping of their soft bodies. You'll learn about their anaerobic lifestyles, essential sugars, and unique fungal gene segments. John covers everything from their symbiotic relationships with

Museum Fungarium: A Brief History Of Fungi Press Access  
Visit the museum Welcome to the museum fungarium where you can look at all types of fungi Be careful not to touch them, they need to be left alone. There are a lot of fungi species living in the world. We have around 1.5 million fungi species. The number of fungi type for example mushrooms in the world are around 3 million. How many types of fungi species? According to the estimates 30 to 100,000 fungi species. The estimates are based on the studies. Every second a new species is discovered that lives in the world. More than 2000, what is the species? More than a million people have fungal diseases. Most of those people are from the tropics countries. So it is hard to find a fungal disease. In the United States more than half of the fungal diseases are in the tropics. If you are near the tropics you will see fungal disease. And if you travel to another continent, you will also be able to see fungal disease. People in the United States have the most infections. People in the tropics have the most fungal diseases. Did you know fungi? There are around 1.5 million fungi species. Most of them are mushrooms. Other than mushrooms there are over 6,000 fungal species. Fungi are live matter that growing up. Did you know fungi? Fungi kingdom is part of the kingdom

---

OTHODONTA or fungus plants. The fungi kingdom organisms are divided into 4 main parts: microorganisms, green microorganisms, macroorganisms and fungi plants. Mushrooms belong to the kingdom fungi plants. However mushrooms are one type
