What's New in the AutoCAD?

Click here to read more about import of markups. Create complex 2D and 3D assemblies: Use a new technology called “Curves on Curves” to create drawings containing complex surfaces with rich detail. Curves on Curves not only smooth out complex surfaces, but it also lets you create a wide range of surface shapes like hyperbolic paraboloids, hyperboloids, cones, toroids, and hemispheres with seamless transitions between them. (video: 1:15 min.) Click here to read more about assemblies. “Recent Files” Assistant: Find the files you created recently or most recently opened, and quickly open them. “Recent Files” Assistant will open all files that are typically located in the “Recent Files” folder, unless you configured the recent files folder to have a different location, and it will put them on the main menu. (video: 1:15 min.) Click here to read more about recent files. SVX WYSIWYG 2D and 3D Editor: Edit your drawings in the WYSIWYG 2D and 3D editors without leaving AutoCAD. You can now edit a 2D or 3D model like you would an illustration, and annotations can be applied to your model even in the WYSIWYG editor. (video: 1:15 min.) Click here to read more about WYSIWYG and annotate. Enhanced 2D-Polyline Type: Highlight your work with enhanced 2D polyline. If you are using a 2D polyline, it will always be visible no matter what the annotation mode is, and you can apply annotations in the WYSIWYG or real-time editors. (video: 1:15 min.) Click here to read more about 2D polyline type. Content-Aware Layout: New Design View Object Snap for 2D and 3D Geometry: AutoCAD’s 2D and 3D Design View Object Snap will always use the geometry along the path between two selections to align the two selections.
