NZD - Asian Island Developments. China is set to overtake the UK as the world's biggest economy in a matter of years. But India has the global population of China, and China is set to overtake the UK as the world's biggest economy in a matter of years. Related topics,... Now India may soon overtake China in terms of population. Ever since India was partitioned into two nations in 1947, India has been a growing economic power and a consumer nation. Not much would have been happening if it not for the China's years of civil war. The Chinese economy grew by a whopping 9.7% every year, while India's grew at 7.7%,... India has topped the annual global ease of doing business rankings for the third year in a row. The Ease of Doing Business Index, compiled annually by the World Bank and the UN, ranks countries based on factors such as the costs of starting a new business, receiving construction permits and trading across borders. The report found India's... India's export growth has dropped to its lowest level in a decade. Official data for the second quarter released on Wednesday by the Ministry of Commerce showed that India's exports fell 3.9% year-on-year, the lowest quarterly drop since the financial crisis of 2008-2009. The decline in exports come just after India posted its

biggest year-on-year... Indian Prime Minister Narendra Modi's government may introduce tough measures to curb the country's ballooning opium output and reduce the surplus of narcotics India has been importing since the 1970s, a government source told Reuters on Wednesday. India has been increasingly reliant on opium and heroin from neighboring Afghanistan to help fund its ballooning... In his speech, Prime Minister Modi emphasised on the need to achieve the target to become a \$5 trillion economy. Modi said that India needs to make a shift in its economic focus from agriculture to manufacturing and services. Today, in the 21st century, the economic focus on agriculture has made us lag behind China and other countries, he said. He said that... On Monday, the government said that 2018-19 agricultural growth will be 7.7% instead of 7.5% earlier forecast. However, it also noted that the growth is likely to slow down as the monsoon had poor rains across most parts of India. The agriculture ministry also quoted the PM that the expenditure in

Name any State of India (whether that state has gone to anyone or .Q: Android: fragment loses network connection on configuration change When my app is in the process of saving some data (it downloads a large XML file), and I change the application configuration to a new activity (say it's a configuration change), then the data is lost (only some part of the file is downloaded). I have tried to use the following code in my main activity: public static final String EXTRA_URI = "my_uri"; public void onCreate(Bundle savedInstanceState) { //... Intent i = new Intent(Intent.ACTION_MAIN); i.addCategory(Intent.CATEGORY_HOME); i.setData(Uri.fromFile(new File(url))); startActivity(i); finish(); } public void onStart() { Intent i

= getIntent(); Uri uri = i.getData(); if (uri != null && uri.toString().contains(url)) { //... } } It doesn't work at all. I always get null. Please tell me if you need any more code. I am working with changing configuration in fragments and not activities. Here is some of my code for the fragment in question:

```
public void onCreate(Bundle savedInstanceState) {
    super.onCreate(savedInstanceState);
    setContentView(R.layout.main); final DataSource ds = new
DataSource(this); ds.setUrl(url); ds.open(); this.data = ds.read(); }
@Override public void onSaveInstanceState(Bundle outState) {
    outState.putString(EXTRA_URI
```
