A: The error is because your closing parentheses is not matching your opening parentheses. (SELECT id, ref FROM table_name) Notice the additional closing parentheses at the end of the SQL. On another note, you can also use prepared statements for SQL injection, which will allow you to input variables into the SQL without worrying about if the specific characters you want to input will mess up the SQL. AFTER A DISASTER-RAPID GROWTH TIME-STAMP: 2018-02-11 08:41:13 From THE BANGKOK POST: The rapid growth of the Daanglang Tourism and Commercial Development Promotion Center has prompted a public outcry that it will spoil the pristine natural beauty of Lang Suan (Lang Suan). Some residents are against the facility near the Hangwatana Environmental Education Center. They say the construction will have an impact on Lang Suan, which was the venue of the sport's first Asian Games, as well as on a nearby stream, which has been polluted by the rising tourism and commercial activities in the area. They also complain about the facility failing to adhere to the environmental protection regulations and are worried about the noise the center is likely to generate as it attracts dozens of tourists and visitors each day. They say the center should be built somewhere else. The residents said the money used to build the center

should have been used to upgrade the infrastructure that will enable Lang Suan to attract more tourists and visitors, not to set up another huge commercial development. Some of the residents, who are also concerned about the noise the center is likely to generate, approached the Thailand Environment and Public Works Department earlier this week to ask the building to be placed in a more remote location. He said the construction may have seriously affected a number of residents of nearby villages and they have been complaining about the noise. He was worried the center will spoil the scenic view in Lang Suan. "Officials from the Daanglang Tourism and Commercial Development Promotion Center have made some provisions to calm the concerns and have set up a committee to look into the issues," he said. The committee includes representatives from the hotel industry, local community and the Daanglang Tourism and Commercial Development Promotion Center. "The committee is asking the residents to refrain from raising their voices and notify the

Despite scientific advances, there is still little progress in understanding fitness concepts in general and the different dimensions and influences on fitness in particular. The present paper develops a comprehensive definition of fitness based on three main assumptions: (1) fitness is defined as a kind of size, (2) fitness is a static attribute of organisms, and (3) fitness is a property of the environment. The way in which the environment interacts with organisms shapes the dimensions of fitness, and fitness is influenced by selection, development, and adaptation, which are all components of the environment. Based on these three assumptions, a proposed comprehensive definition of fitness is discussed and illustrated with examples. For each dimension of fitness, scientific advances and their implications on fitness as a whole are presented, and the need for a general definition of fitness is highlighted. Finally, the adaptive landscape theory is applied to demonstrate

the importance of understanding these three aspects of fitness and their interrelationships in making progress in the understanding of evolution. I've got a lot to say and I'm only getting started. First off, I've been getting some messages on Twitter and on facebook people have been asking me about the Stitch Fix box we got and the contents we received. I understand the frustration of receiving an unpersonalized box and having to chose what you like and what you want to keep. I thought I would sum up my feelings on the experience because what you see in the photos is only the tip of the iceberg. I can't speak for everyone else, but I've been fortunate enough to not receive a box for a long time now. The last time I received a box in the mail was in 2011 and in 2012. I ended up getting 3 Fixes because I wanted to get a different look for every season. This year however was pretty different. What I received didn't look like anything I'd seen from Stitch Fix before. Even though there was a floral in the back, the front was completely different. It wasn't floral and it wasn't black and white. It was the beginnings of a stitched up look that was starting to evolve. It reminded me of the early-2000's when men's
