"Out of this world. There is nobody here. It's a world of a fantasy." ----- "Tachyon G." [Information from the website: out that farm rhythm The recent drought in California – one of the largest in US history – has had an impact on a lot of people and has sparked lots of discussion about the future of farming in that state. On the farm, the drought has had the impact of financially draining some farms, forcing others to live on a diet of reduced farming practices, and leaving the weather vane-point of an avid plant grower to tiptoe into uncharted territory. During times of drought, like California's, agricultural products such as hay and fuel are somewhat less valuable, but now is also a time to be particularly watchful for the potential of severe weather conditions. In my earlier post, I mentioned that while the weather forecast for the coming winter appeared encouraging, there were many variable factors that could influence whether a farmer could get his crops in before the winter weather hit and what consequences that might have to a farmer's operation. For a number of farmers, this may mean spending weeks, or even months, more planting seeds with a weather forecast saying things will get more favorable by the end of the season. It also means spending the time to bring in new seed varieties and researching fertilizer options to maximize the production of crops and the return on investment. Although this is a business where you are not making a profit right now, every moment is useful to maximizing the final yield of the season and to protecting your investment through these months. Farmers get only a few chances to make good decisions about each season and working to protect your investment by being on the cutting edge of scientific

- A deep story that will bring you even more excitement
- Open World - Wander around as you please
- Detailed 3-D Graphics
- Accessible with no downloading (Excluding the mobile patch)
- No in-app purchases (except DLCs)

A Story of Your Own Initiation into the Elden Ring

You are seen as an in thing in Aria. Ashard, a young man from Aria's northern city of Maldornn, saved princess Arielle, the youngest daughter of the late king of Aria. But before him, there was Grandfather, king Valellis. The king, a determined tyrant in the past, became obsessed with Ashard's friend, helping him become a prince of the royal family. And it is through this influence that Ashard, alongside with his friend, Aiskla, made his way to Maldornn, with an aim to wipe out the blood stain from Ariella's family history. The royal assassination was only a first step for the hideous plan. Upon arrival at the royal mansion in Maldornn, Ashard, together with other people (such as Nordina), succeeded in assassinating the king and the people on his side, while a traitor, the Queen Wylla. And when you confronted Queen Wylla, she brutally murdered all of us together. Even though no one was able to save Ashard's life, he managed to flee from Maldornn as soon as possible.

Players can choose to be a captain of a war party, or a lone wolf.

We hope you will enjoy the game, and look forward to you joining us!

Kind Regards
HI-ARIAN TEAM

Welcome to Tarnished!
