SMARTIE SINGER SMARTIE SINGER. 01:25:00. Big Top. Big Top is a tool that was built by three guys in London to help me make VFX for videos. Big Top is actually a workflow platform, i.e., it supports almost all the major workflows that you might be familiar with. It's like a Swiss Army knife for the VFX industry, but it's also versatile enough that you can use it for just about any type of film, video, animation, game or interactive project you might be working on. You can build a custom scene using all the components in the toolkit, or you can quickly set up a common toolchain using either the Inception or Ripple libraries. Here's a demo that shows how you can use just the Ripple library to quickly set up a simple compositing workflow for a single rendering setup (I worked with the guys at VoxxHost to build this, but they started it as a project that they were working on. They have version 1.0 of this tool, but they're always looking for feedback on the 6d1f23a050
