Hindi Wikipedia category Contents [English] English Wikipedia english version).P.G93 · This section comprises of articles related to the Guiarati language, and it is being stubbed for, Vrachnalat gujarati; English dictionary; Gujarati to English. This invention relates to fluid control systems and more particularly to a control system for a multistage centrifugal pump. In multistage centrifugal pumps, a plurality of stages are arranged in parallel. Each stage includes an impeller and a housing, both of which are connected by a shaft. The several impellers are usually mounted in spaced relation along the length of the pump shaft and the several housings are mounted in series along the length of the pump shaft. The impellers are each connected to the shaft by a thrust bearing and a coupling. Each thrust bearing is interposed between the impeller and the housing so as to receive a thrust load imposed on the impeller by fluid being pumped by the impeller. The coupling connects the impeller shaft to the shaft of the adjacent impeller.
