I'm trying to fill a DataTable with some values from a web service. The DataTable has three columns: id, date and value. In column id, there are IDs of orders, and these IDs are repeated for each line (there are 6 empty rows between two rows with an ID). In column date there are dates of orders; date and value are in this format: 16/05/2017 1:00 - 21.00 In each row, it's either "1:00 - 21.00" or "22:00 - 21.00" (there are empty rows in between). This means that there are 2 empty rows between two rows with the same date. I want to insert the web service data into the DataTable in the following format: Order #1 16/05/2017 1:00 - 21:00 Order #2 16/05/2017 22:00 - 21: c6a93da74d
